MISSION

All Students Achieving
At High Levels

TWO ANNUAL BOARD FOCUS AREAS

Focus Area: MATHEMATICS
IMPROVEMENT GOAL: Develop a district-wide, evidence-based mathematics program that will produce high-level and equitable mathematical understanding by all students and allow them to perform successfully on state/national accountability and college readiness assessments.

Focus Area: PROFESSIONAL LEARNING COMMUNITIES
IMPROVEMENT GOAL: To implement PLC as a direct way of meeting our mission of All Students Achieving at High Levels. PLC’s focus efforts around three big ideas: Students & Staff Learning, Staff Collaboration, and Academic Results for Students. Below are the four critical questions of our PLC work:
- What is it we want our students to learn?
- How will we know if our students have learned it?
- How will we respond if our students don’t learn?
- How will we enrich and extend the learning for students who have learned it?
