INSTRUCTION

Transitional Bilingual Instruction

The following procedures have been instituted for purposes of implementing a transitional bilingual instruction program.

A Transitional Bilingual Instruction Program, as defined by state law, means a system of instruction which uses two languages, one of which is English, to build upon and expand language skills to enable the pupil to achieve competency in English. Or in those cases where the use of two languages is not practicable, appropriate instruction for English language learners may be provided primarily in English.

The district will provide English language learners appropriate core academic instruction in addition to language instruction. The district’s Transitional Bilingual Instruction Program is intended to supplement core academic instruction.

Program Application and Description

Annually, and prior to August 1 of each year, the district will submit an application to the Office of Superintendent of Public Instruction requesting funding to support its Transitional Bilingual Instruction Program. In its application the district will provide a description of its research-based program models including staffing and implementation strategies.

Eligibility

At the time of registration, the parents/guardians of each student shall be asked to complete a home language survey which identifies the child’s primary language. Students that indicate on the home language survey a primary language other than English will be assessed within ten school days of enrollment and attendance using the Washington Language Proficiency Placement Test to determine eligibility for the transitional bilingual instruction program. Any student who scores a level one (beginning/advanced beginning), two (intermediate) or three (advanced) will be eligible for the program. Students who score at level four (transitional) are not eligible for the program. Staff will determine the appropriate instructional program for each eligible student.

Parent/Guardian Notification

Parents/guardians will be notified, in writing, of their child’s initial eligibility and notified annually of their child’s continuing eligibility in the Transitional Bilingual Instruction Program. At a minimum the parent/guardian notification will contain:

- How the child’s eligibility was determined and the child’s current level of English proficiency;
- A description of the district’s program and how it will meet the child’s educational needs;
- The specific exit requirements for the program; and
- Information about the parent’s right to refuse services.

Communication with parents/guardians should be provided, when feasible, in the parents’ primary language.

**Continued Eligibility/Annual Assessment**
Each eligible English language learner must be assessed annually, using the state-approved language proficiency test to determine continued eligibility. Students remain eligible until they reach level four (transitional) on the annual state-approved language proficiency test.

**Expected Graduation Year**
For eligible English language learners who require extended time to meet high school graduation requirements, the district may set an expected graduation year beyond the typical four years of high school or through the school year in which a student turns 21.

**Credit for Course Work Completed in the District**
Any student of limited English proficiency who requires training in English-as-a-Second-Language prior to successful participation in regular academic courses shall not be enrolled as a senior.

**Evaluation of Previous Course Work**
Limited-English-speaking students with official academic records will be awarded credit based on the number of hours per week that the student attended class in accordance with the following guidelines:

Up to one foreign language credit (180 hours of instruction) may be awarded for classes taken in which English was studied as a foreign language. English credit will not be awarded for this study.

Credit for other course work will be awarded based on established district criteria including number of hours of instruction per week, sequence of courses, course content and prerequisites.

Students of limited English proficiency who enter grades 9, 10 or 11 may be awarded credits toward graduation from high school on the basis of course work successfully completed in foreign schools.

**Non-credit Program**
Limited-English-proficient students who enter the school district when they are 18 years of age and who have had less than 8 years of formal education will be enrolled in the transitional bilingual program. The district staff will make every attempt to provide these students with an adequate program of survival English, history, mathematics and vocational counseling and training. Such students will not normally receive a diploma.
Record Keeping and Documentation
The district will maintain records of eligible students and comply with state reporting requirements. Original documents will be kept in the student cumulative folder and copies in the program folder if applicable. These documents include the home language survey, parent notification letters, parental waiver (if applicable), and language proficiency test assessment data.

Communication Plan
The district will develop and provide to parents/guardians, district staff and interested stakeholders a user friendly description of the Transitional Bilingual Instruction Program offered in the district. The description will include the process for identifying and serving English language learners and provide contact information for the district’s transitional bilingual instruction program manager.
