FOUR DISTRICT GOALS

1. **Target Area: MATHEMATICS**
   IMPROVEMENT GOAL: Develop a district-wide, evidence-based mathematics program that will produce high-level and equitable mathematical understanding by all students and allow them to perform successfully on state/national accountability and college readiness assessments.

2. **Target Area: FACILITIES / TECHNOLOGY**
   IMPROVEMENT GOAL: To have district facilities and technology that optimize staff instruction in order for students to learn at the highest possible level.

3. **Target Area: STAFF/COMMUNITY RELATIONS**
   IMPROVEMENT GOAL: Develop strategies and activities to engage staff and community members into the events and activities of our school district.

4. **Target Area: ASSESSMENT**
   IMPROVEMENT GOAL: To build a student assessment system to closely monitor student learning as tied to standards in each content area.

FACILITIES / TECHNOLOGY
IMPROVEMENT GOAL: To have district facilities and technology that optimize staff instruction in order for students to learn at the highest possible level.

- Old, unreliable systems
- Does not support current software
- Outdated technology
**Message from Superintendent, Mike Nelson**

Dear Friends,

For the past 18 months, our school district has engaged in conversations regarding our facility and technology needs. In the spring of 2007, Tim Madden and I met with every school staff and held community meetings at each of our schools determining facility and technology priorities at each site and across our district.

In the summer of 2007, our district with participation of community members selected Mahlum Architects to complete a Study of Survey of our school district during the 2007-08 school year, using information that we had gathered during school and community meetings. Also, during 2007-08 school year, our technology department participated in an independent, outside audit which included student, staff, parent and community surveys.

The foundational and transparent work, occurring during the past 18 months, has given us the knowledge of collective voices across our staff and community about high need areas. This brochure outlines for you the Capital Facilities Levy that will be voted on by the citizens in the Enumclaw School District on February 3rd, 2009.

Please feel free to contact me with any questions that you may have.

Thanks!

</table>

Total $4,874,075  
Total Levy $8,400,000

*Levy rate per $1,000

**Proposed Technology**

- Mobile computer labs
- Utilize latest software technology
- Support for graphics, CAD, and other industry programs
- Increase computer exposure for students
- Integration of curriculum and technology
- Promote student work and collaboration

The 2008 Capital Facilities Levy will provide updated and modern technology and equipment to every core classroom like these at

- Mobile computer labs
- Utilize latest software technology
- Support for graphics, CAD, and other industry programs
- Increase computer exposure for students
- Integration of curriculum and technology
- Promote student work and collaboration

**Proposed Facilities**

- Projection systems
- SMARTboards
- Document cameras

New web-based control system can be accessed from any district PC

New heat pump

New roof
